Commissioner for Patents

P.O Box 1450

Alexandria VA 22313-1450

Petition to patent examiner Thanh P Duong:

Reliance on independent claim 1 and expansion of this claim by dependent claims has been contributed.

A clean copy of original claims and a clean copy of amended specification, are unneeded provisions as specified in 37 CFR 1.121, however listing of claims is provided.

Separate copies (two pages) of all claims specified in 37 CFR 1.121 are included.

It is petitioned, by the applicant, that these pages be accepted and entered by the examiner.

Very respectfully,

A handwritten signature in cursive script that reads "Gene E. Lightner".
